## ABOUT ME:

---

B.Tech student with a passion for web development and building new features. Created "Apna Quiz," an online quiz website, showcasing my web development skills. Seeking an internship opportunity to contribute to real-world projects and further develop my skills.

## PROJECTS:

---

### Apna Quiz | HTML, CSS, JavaScript, NodeJS, SQL

Mar 2024 - Apr 2024

- Developed "[Apna Quiz](#)", a web-based application offering a collection of quizzes on various topics.
- Users can browse, participate, and receive immediate feedback on their results.
- The application utilizes a secure database to manage quiz data, user responses, and scores.
- Implemented interactive elements, quiz logic, and user interaction features to create a visually appealing and engaging quiz-taking experience.

### The Reader's Guide | C++

Nov 2023 - Dec 2023

- Designed and developed "[The Reader's Guide](#)", a C++ terminal based application for book exploration.
- Implemented search functionalities for books by author name, genre, and title, allowing users to discover relevant literature.
- Provided detailed book information upon search results, including author, publication date, summary, and rating, empowering users to make informed reading choices.
